PROFILE

Full-stack developer and Computer Science diploma student in Dinajpur, Bangladesh. I build complete web applications with React, Next.js, Node.js, Express, MongoDB, and TypeScript — from data and authentication to responsive interfaces and deployment.

EXPERIENCE

Independent Full Stack Developer

2025 — Present

Self-directed projects · Dinajpur, Bangladesh

- Built BazarDor, a Bengali market-price platform with Next.js 16, Better Auth, MongoDB, and protected user pages.
- Developed FitLog, a workout planner with a five-exercise daily limit, saved exercises, and live session totals.
- Built DevStack, a React and TypeScript stack builder with a JSON-driven catalogue and a live selection panel.
- Shipped User Manager, a Next.js dashboard with a separate Express 5 REST API, validation, and full CRUD.

SELECTED PROJECTS

BazarDor

bazordo.netlify.app

Bengali-first market prices with daily trends, market ranges, and authenticated pages.

Next.js 16 · React 19 · TypeScript · Better Auth · MongoDB

FitLog

remarkable-tiramisu-1f6f4a.netlify.app/workout

Workout library and daily planner with saved exercises and live session totals.

Next.js 16 · React 19 · TypeScript · Tailwind CSS 4

DevStack

teal-dragon-0cccab.netlify.app

Visual development-stack builder with a JSON catalogue and a live selection panel.

React 19 · TypeScript · Vite · Tailwind CSS

User Manager

scintillating-parfait-c51647.netlify.app

Full-stack CRUD dashboard with search, validation, and live API status.

Next.js 16 · Express 5 · TypeScript · REST API

SKILLS

Frontend	React, Next.js, TypeScript, JavaScript, Tailwind CSS, HTML/CSS
Backend	Node.js, Express, MongoDB, Better Auth, REST APIs
Tools	Git/GitHub, Vite, Netlify, Postman, npm
