PROFILE

Frontend developer with 4+ years of experience building fast, accessible product interfaces. Specialises in React, Next.js, and TypeScript, with a strong design sensibility and enough backend range to own features end to end.

EXPERIENCE

Freelance Frontend Developer — 2023 — Present

Self-employed · Remote

- Shipped 20+ production interfaces across marketing sites, dashboards, and design systems, averaging 95+ on Lighthouse performance.
- Built reusable component libraries that cut new-page delivery time by roughly 40% and kept design and code in sync.
- Introduced accessibility checks and visual regression testing into client workflows, catching regressions before release.

Frontend Developer Intern — Jan — Jun 2023

TechNova Solutions · Dhaka, Bangladesh

- Rebuilt the reporting table with virtualized rows, supporting 50k+ records without jank.
- Reduced the main bundle by 28% through route-level code splitting and dependency cleanup.
- Replaced ad-hoc fetch logic with typed API clients and wrote component tests for critical filters.

Open Source Contributor — 2022 — Present

Various projects · Remote

- Merged accessibility and keyboard-navigation fixes into React component libraries.
- Improved documentation examples for form and dialog primitives; review pull requests and triage issues.
